389/ 500 — 77.80%

## PROJECTS

### Server Maintenance Page /HTML, Shell [Git](#)

08/2024 – 09/2024

- This is a simple maintenance page.
- Simply download the index.html, modify its content, and copy it to your desired path.
- Additionally, you can use the provided install.sh script.

### License Plate Recognition System /Python, Haar [Git](#)

06/2024 – 07/2024

- Automatic number-plate recognition is a technology that uses optical character recognition on images to read vehicle registration plates.
- It uses Haar cascade which is a machine learning algorithm that detects objects in images by using Haar features to classify windows as positive or negative.

### Typing Speed Test /Python [Git](#)

05/2024 – 06/2024

- This is a GUI based Python Program which measures your Typing speed
- Extract typing\_speed\_test repository on local machine and open typing\_speed\_test folder
- Give required permissions and enjoy the typing\_speed\_test Application.

### A Hotel Management Platform /Python, MySQL (RDBMS) [Git](#)

12/2023 – 03/2024

- A dynamic and user-friendly hotel management website offering seamless room info, personalized and hassle-free bookings for an unforgettable vacation experience.
- Provided with an innovative feature that gathers user preferences to tailor the staying experience, ensuring it's nothing short of exceptional
